

CHAPTER LETTER

Affiliate Lecture — All Members Invited

What is Historic Preservation
and How Does It Affect you?

Speaker
Maximilian Ferro RIBA, AIA

5:30 p.m.
Boston Architectural Center

Wednesday, September 15

Boston is the locus of much preservation of older buildings and neighborhoods. There has been an active preservation movement within the architectural profession as well as other concerned individuals. Max Ferro AIA, one of our best known preservation consultants will speak about the origins and motives of the preservation movement. After a brief discussion of preservation legislation and tax incentives, he will describe the different opportunities for participation, including building construction, stabilization, restoration, adaptive restoration, and adaptive reuse of commercial and residential buildings.

The dual interest of this lecture will be to show how preservation can help to shape our built environment hand in hand with new construction, and how anyone can learn to play a role in preservation endeavors.

An Architect and His Building

Speaker

Hans Fulscher, architect,
Project Architect with Paul
Rudolph FAIA

10:00 a.m.-12 noon

First and Second Church
Berkeley and Marlborough Streets
Boston

Saturday, September 25

The Roxbury Puddingstone Gothic (Ware and Van Brunt architects) structure which housed the First and Second Church of Boston since 1868 was destroyed by fire in 1968. All that remained was a burnt out rose window standing silhouetted against the sky.

This congregation, which was founded in 1630, without hesitation voted to rebuild and continue the oldest continuing congregation in Boston.

Paul Rudolph was chosen to create on the old site a building of distinction which would continue this tradition. At the dedication, Dean Richard Pierce described the building as "Completely modern in style and design its new structure attempts to express the needs and aspirations of a contemporary liberal congregation in an urban neighborhood and through its form to articulate what the church professes in spirit."

Hans Fulscher will describe the design process as he worked with the congregation to capture the spirit of this magnificent history so as to continue its service to the city, the congregation and the neighborhood.

Opportunity to Participate in Study on Video Applications for Design Professions

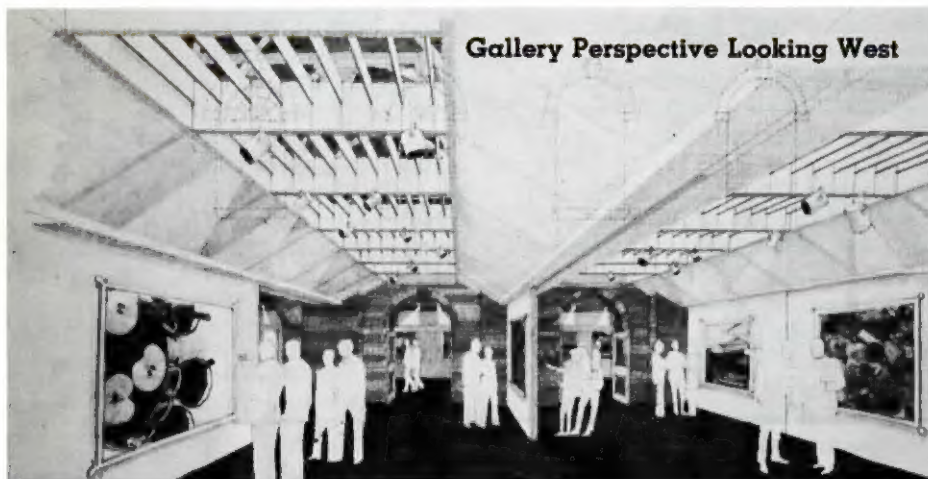

Vision, Inc., The Center for Environmental Design and Education, a non-profit organization in Cambridge, has received a grant from the National Endowment for the Arts, Design Arts Program, to conduct a study exploring the current and potential utilization of video technology and cable television for the design arts professions.

The purpose of the study is to research and document case studies that represent innovative applications of video technology and cable television in the design arts professions. The selected studies will be documented through; feature articles, a manual, and a 28-minute videotape for cable stations across the country. Some examples of innovative use have been video technology as a training tool, a design tool, a management tool, a communications tool, and a public/client education and awareness tool.

Individuals or design organizations interested in participating in this study should contact Joyce Meschan, President of Vision, Inc., 219 Concord Avenue, Cambridge 02138. (617)491-3763

Office Space

To share with four design firms. Central Square, Cambridge. \$7.50/sq. ft. Flexible drafting space. Excellent transit, parking. Call Sturgis 492-2323 or Kruger, 661-3812.

Boston Firm Exhibits Work at Whitney Museum

Amsler Hagenah MacLean Architects, Inc. is among twelve firms exhibiting designs for recent art museum projects at the Whitney Museum of American Art in New York. Four colored renderings of the firm's project, The Phillips Exeter Academy's new Mayer Art Center and Lamont Gallery, will be displayed from June 24 through October 10.

From the Bookshop

Ronald Fleming of The Townscape Institute in Cambridge has a new book on public places. **On Common Ground** is a practical book for concerned citizens interested in caring for shared land from the town common to an urban park. The guidelines are specific enough to include bandstands, litter containers, bike racks, and ornaments. Schedules for planting and maintenance are included with case studies of parks from New England to California; successes and failures. John Stilgoe of Harvard University provides the history of New England town commons and John Updike has written the preface. Contains a useful inventory of New England com-

The Exeter project is currently under construction and scheduled to be completed this fall. The design which involves both renovation and new construction, consolidates all spaces for the teaching of the visual arts at Exeter. Studios and classrooms are located in close proximity to a central new gallery. Kenneth MacLean of Hingham is partner-in-charge.

mons and greens, and interesting lore as well. It is a heartening comment on the role of stewardship.

The Architectural Association in London has sent several small catalogues of exhibitions to The Bookshop. These are \$6.00 each, approx. 50 pages. The catalogues available include **Taller De Arquitectura** which is under the leadership of Ricardo Bofill; **Ron Herron 20 Years of Drawings**; **Great British Architects** which includes Sir William Chambers, Michael Searles, C. F. A. Voysey, Pugin, C. Barry, and E. A. Rickards; **W. Hablik**, the north German expressionist; **Herman Muthesius** author of *The English House*; **Amancio Guedes**; and **Some Designs** by Charles Rennie Mackintosh.

BAC Study Tour to Mexico

The BAC is sponsoring its fifth annual study tour with a thirteen day architectural journey to Mexico, January 1983. The itinerary will include Mexico City, Coyoacan, Pedregal, San Angel, San Miguel, de Allende, Guanajuato, Morelia, Merida, Uxmal, Chichen-Itza. The cost will be approximately \$850 per person including land and air fare with an open ended ticket arrangement offering extended vacation time at the traveller's option.

For further information: Leon Bailey in care of the BAC Tourist Committee, 320 Newbury Street, Boston 02115. He may be reached by telephone at 288-7894.

AIA Housing Committee Meets in Boston

The national Housing Committee will meet in Boston, September 23-25. All interested members are invited to attend the area meetings which are scheduled at the Boston Architectural Center on the 23rd from 9:00 a.m. to 5:00 p.m., the 24th from 9:00 p.m. to 12 noon followed by a walking tour of Boston.

The Committee has scheduled a Design Charrette at the Rice Bancroft School, Appleton and Dartmouth Street, on Saturday morning. Paul Carroll AIA, a member of the committee, is coordinating local arrangements.

Committee on Health Care Facilities

The first meeting, held on July 14, 1982, was well attended and rendered stimulating ideas. Self-education, public education, professional resource and liaison with National CAH and local agencies were among the goals formulated by the group.

A briefing on CAH activities and presentation of case studies will be the subject of the Fall meetings.

If you want to join the Committee or would like more information about it, please contact Martha Bil Manevich AIA, at 969-9400.
